

Canada's Voice For Bone And Joint Health

# Celebrating

# 50

# Years

## Message from the President and Chair, Dr. Geoffrey Johnston

In the past fifty years, the Canadian Orthopaedic Foundation has invested close to \$1 million in research and helped tens of thousands of Canadians through their orthopaedic journey.

Since its inception in 1965, our charity, the Canadian Orthopaedic Foundation, has had to respond to an ever-evolving environment, transforming from a small orthopaedic research organization into a national fundraising body with a primary focus on patient education. In 2014 the Foundation has further matured, and gained capacity, to take on a significantly larger role in supporting orthopaedic research and orthopaedic community innovation. This renewed overt commitment to our surgeons remains balanced by our sustained focus on patient education via our educational library which provides trustworthy and surgeon-approved resources to the public. As hospital stays shorten, and healthcare becomes increasingly complex, patients continue to ask for information that will help them prepare for their orthopaedic surgical experience.

Donor and corporate support has continued to generate hope in 2014 by making it possible to launch a new smoking cessation program – we all know the impact of smoking on surgical outcomes – and to further reach patients with the Ortho Connect Peer Support Program. Funding was also invested into the expansion of our resource library to incorporate a new hip fracture booklet and a hip replacement booklet designed to help Canadians understand their surgery and recovery.

We are all keenly aware of the burden of musculoskeletal treatment and the rising need for orthopaedic surgery. Orthopaedics has to take advantage of the rapidly changing technology and healthcare environments, which drive innovation. Innovation only comes from bright ideas which, with financial support, can translate to the bedside – many of our ideas die on the vine for lack of funding. Provincial and national government

funding for research has become increasingly scarce and difficult to access. Nevertheless we cannot afford to let our good ideas go to waste. We have recently heard of Toronto orthopaedic surgeons committing substantial amounts of their own earnings (e.g. \$125,000 each) to a research fund, to address this serious research funding gap. We at the Canadian Orthopaedic Foundation want to expand our research grant portfolio so that together we can kindle the research and innovation ideas that are needed – to make the difference we so want, to improve the way we practice, and to improve our patients' surgical outcomes.

Of course, none of our accomplishments would be possible without volunteers. Our organization's life-blood is our wonderful volunteers and their dedication and steadfast commitment. Critically important, volunteers help us through peer support and fundraising, and assist in delivering our mission nationally.

As we embark on our 50th year of service, our Foundation has developed an ambitious strategy to provide researchers and innovators the means to find new ways to treat Canadians and to fund community-based programs that support patients and their caregivers. The Foundation will also help Canadians understand how to maintain life-long bone and joint health. We continue to be true to our mission, to achieve excellence in bone and joint health, mobility and function for all Canadians through the advancement of research, education, and care.

The Foundation is determined to support your good ideas, the many opportunities enabled by scientific discovery. More than ever we need to reach out to our donors amongst the public and surgical communities, appealing to their generosity to fuel these initiatives.

Thank you for your continued support, particularly as we celebrate our 50th anniversary.

## Four Strategic Priorities

### Patient Education

Be the organization of choice for patient information; improve outcomes for surgical patients; support non-surgical patients with information and advice; and educate the public on disease prevention.

### Surgeon Support

Fund strategically important research by orthopaedic surgeons; support continuing education and innovation; and improve the efficiency and effectiveness of clinical practice.

### Health Policy

Build public awareness of the impact bone and joint conditions have on society; opportunities for prevention, self-management, patient education; and opportunities for service improvements.

### Build Capacity

Continuously improve funding, partnerships, community and volunteer networks, processes, people and technologies to effectively deliver services.

### Our Vision:

**We are Canada's patient voice for bone and joint health.**

### Our Mission:

**To achieve excellence in bone and joint health, mobility and function for all Canadians through the advancement of research, education, and care.**

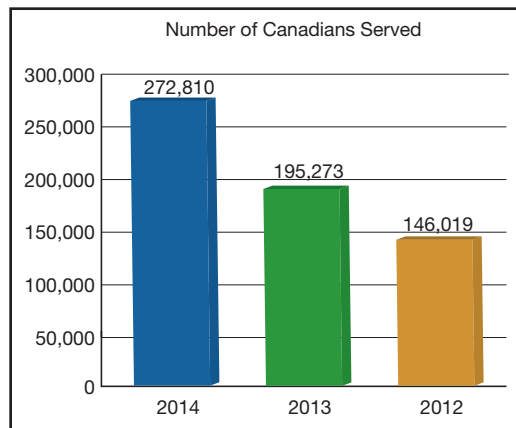

## Making a Difference

As a national charity, we are committed to investing into local communities across the country. We do this by providing hospital grants that help to improve patient care, by funding local researchers and by delivering free patient resources to surgeons and healthcare facilities nationally.

Below are just some of the ways we have helped to improve the lives of people over the years:

- Funded close to \$1 million in research grants
- Funded approximately \$10 million in community grants in more than 61 regions across the country
- Provided surgeons and hospitals with patient booklets reaching more than 200,000 Canadians
- Offered peer support to many of the tens of thousands of people on the wait list for surgery

In 2014, we served almost 300,000 Canadians, hospitals and orthopaedic professionals nationally.

Celebrating  
**50**  
Years

The Canadian Orthopaedic Foundation serves Canadians via the following programs and resources:

Ortho Connect Peer Support Program

Hip & Knee Pre-surgery Patient Booklet

Foot & Ankle Patient Booklet

Hip Fracture Patient Booklet

Patient Videos

FIFA 11+ Soccer Injury Prevention Program

OrthoLink Newsletter

Hip & Knee Post-surgery Patient Booklet

Clubfoot Booklet

Hip Replacement Patient Booklet

## Statement of Financial Position

As at March 31, 2014

<b>ASSETS</b>	<b>2014</b>	<b>2013</b>
Current Assets	656,340	677,593
EQUIPMENT	10,562	13,695
INTANGIBLE ASSETS	10,410	11,749
LONG TERM INVESTMENTS	28,058	26,988
	<u>\$ 705,370</u>	<u>\$ 730,025</u>

### **CURRENT**

Accounts payable and accrued liabilities	91,219	148,384
Net assets	<u>614,151</u>	<u>581,641</u>
	<u>\$ 705,370</u>	<u>\$ 730,025</u>

## Statement of Operations

<b>Revenue</b>	<b>2014</b>	<b>2013</b>
Receipted donations	368,335	486,269
Non-receipted donations	72,130	79,824
Gifts from other charities	7,598	13,751
Government funding	0	223,777
All other revenue	\$279,763	92,061
<b>Total revenue:</b>	<b>\$727,826</b>	<b>895,682</b>

### **Expenditures**

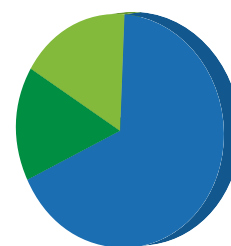

Charitable programs & research	\$466,813	571,467
Management and administration	\$109,265	113,020
Fundraising	\$119,237	77,702
Other	\$1	0
<b>Total expenses:</b>	<b>\$695,316</b>	<b>762,189</b>

Celebrating  
**50**  
Years

### Your Donations Hard At Work

Be assured that your donations are prudently invested. Together we can be proud that less than 16% of overall costs are dedicated to management and administration costs – a rare accomplishment in the charitable sector.

- Charitable Programming 67%
- Management & Administration 16%
- Fundraising 17%

Through your ongoing support, you have made a difference in the lives of others. It is because of people like you the Foundation is able to deliver its mission of orthopaedic research, educational programs and patient support.

## Here is what patients have been telling us about our Ortho Connect peer support program:

*“ It was very helpful to speak with someone that had a similar experience. It helped me to deal with the apprehension.”*

*“ I am so glad to find out about this program from the doctor's office. The brochure is definitely informative and useful. Thanks again for your personnel in the office to connect me with the kind lady. The volunteer provided me with a lot of good experiences.”*

*“ Ortho Connect is an excellent program and was very helpful and answered many questions.”*

*“ It made a big difference for me talking to a volunteer. I did not feel so isolated.”*

*“ The volunteer was very well matched with me (age, work, etc). She is a very pleasant lady, patient and with a lot of empathy. Certainly, she helped minimize the pre-op panic. Thank you.”*

*“ Speaking to the volunteer answered my questions and put me at ease over the anxiety of the upcoming surgery.”*

*“ The program provided me with much comfort and optimism regarding my future surgery, recovery period and ultimate total recovery and future. I went into the surgery with complete peace of mind.”*

*“ Thanks for this wonderful service. It really helps with the fear of the unknown. Now I feel more prepared.”*

*“ Excellent program – please continue. My volunteer was so friendly and positive and caring! ”*

Ortho Connect is a free, telephone-based peer support program through which people newly referred for bone and joint surgery are matched with trained volunteers who have already undergone similar surgical treatment.

Patients connect with volunteers to learn a real-world patient view of what to expect from their treatment. Ortho Connect helps patients to feel confident and informed through providing an experienced, understanding ear.

## Planned Research and Grant Portfolio for Orthopaedics in Canada

### Education & Research Grants

RESEARCH GRANTS	EDUCATION GRANTS
<p><b>Canadian Orthopaedic Research Legacy</b>  <u>2-4 grants of \$20,000 per annum</u></p> <ul style="list-style-type: none"> <li>The CORL program provides seed funding and helps to ensure Canada's world-class status in orthopaedic research.</li> <li>Applications invited from all disciplines and subspecialty groups.</li> </ul>	<p><b>Visiting Professor Grants</b>  <u>2 grants of \$4,000 - \$8,000 annually</u></p> <ul style="list-style-type: none"> <li>Ideal for group learning, Visiting Professor Grants enable a visiting professor to spend up to five days at a Canadian hospital with a mandate to broaden knowledge and facilitate the exchange of ideas with surgeons, researchers and staff.</li> </ul>
<p><b>J. Edouard Samson Award</b>  <u>1 grant of \$15,000 per annum</u></p> <ul style="list-style-type: none"> <li>Recognizes the best career orthopaedic research over a period of five (5) years or more at a Canadian centre. This award is intended to promote further research by the recipient.</li> <li>The award consists of a medal, a \$5,000 educational grant and a \$10,000 personal research grant.</li> </ul>	<p><b>Travelling Educational Grants</b>  <u>2 grants of \$3,000 - \$4,000 annually</u></p> <ul style="list-style-type: none"> <li>With a goal to expanding knowledge, Travelling Educational Grants will enable established surgeons to gain knowledge and expertise by visiting an educational centre of excellence in Canada.</li> <li>Visits will range between 2-5 days in duration and the grant will provide for all travel expenses directly related to the mandate.</li> </ul>
<p><b>Robert B. Salter Award</b>  <u>1 grant of \$10,000 – when funding allows</u></p> <ul style="list-style-type: none"> <li>This prestigious and special research award recognizes outstanding new research in Canada.</li> </ul>	
COMMUNITY & INNOVATION AWARD	
<p><u>2 grants of \$10,000 – when funding allows</u></p> <ul style="list-style-type: none"> <li>The Community and Innovation Award celebrates community-based surgeons and smaller scale research studies dedicated to improving patient care or musculoskeletal health in their community.</li> </ul>	

### Fellowships and Scholarships for Residents and Fellows

#### Clinical Fellowship Grants 1-2 grants of \$50,000

- With a goal to support fellows and the COA's accreditation program, the Foundation will offer educational grants supporting members practicing across a wide range of disciplines and regions.

#### Bones & Phones Scholarship Fund 1 grant of \$1,000 annually

- The Bones and Phones Legacy Scholarship Fund was established to recognize orthopaedic residents who have demonstrated commitment and contribution to enhancing musculoskeletal health in their community, or abroad, beyond that which would be expected during their residency training period.

#### Anica Bitenc Fellowship 1 grant of \$10,000 annually

- This grant sponsors a young orthopaedic surgeon on a rotational basis from Slovenia, Croatia and Serbia for a two-week fellowship visiting various orthopaedic centres across Canada.

## A Glance at the Past 50 Years

### J. Edouard Samson Award

Founded in 1966, the J. Edouard Samson Award is the premier award for orthopaedic surgery in Canada. Previous recipients include:

## Canadian Orthopaedic Research Legacy Grant (CORL)

The fund was established in 2006 to help ensure Canada's world-class status in orthopaedic research.

- 2014: Dr. George Athwal and Dr. David O'Gorman (London, ON) - "The Effects of Propionibacterium Acnes Infection on the Integration of Primary Human Cells into 3D Models of Shoulder Tissue Repair"
- 2014: Dr. Peter Lapner (Ottawa, ON) - "Diagnostic Accuracy of Synovial Biopsy for Implant-Related Shoulder Infections"
- 2013: Dr. Douglas Naudie and Dr. Matthew Teeter (London, ON) - "Evaluation of Conventional and Patient-Specific Instrumentation using RSA"
- 2012: Dr. Olufemi Ayeni and Dr. Mohit Bhandari (Hamilton, ON) - "Femoracetabular Impingement RandomiSed Controlled Trial (FIRST)"
- 2011: Dr. Steven J. MacDonald and Sharon E. Culliton (London, ON) - "A Randomized Controlled Trial to Establish Patient Expectations of Total Knee Arthroplasty".
- 2010: Dr. Jeffrey Leiter, Dr. Peter MacDonald and Dr. Judy Anderson (Winnipeg, MB) - "Exploring the Biologics of Rotator Cuff Injury and Advancing Repair".
- 2009: Dr. Victoria Avram and Dr. Mohit Bhandari (Hamilton, ON) - "Prevalence of Abuse with an Intimate Partner Violence Surgical Evaluation (PRAISE): A Multi-Centre Cross-Sectional Study"
- 2009: Dr. Paul Duffy and Dr. Prism Schneider (Calgary, AB) - "A Randomized Clinical Trial Comparing Open Reduction and Internal Fixation with Non-Operative Treatment of Isolated Ulnar Diaphyseal Fractures"
- 2008: Dr. Markku Nousiainen (Toronto, ON) - "Training Femoral Neck Screw Insertion Skills to Surgical Trainees: Computer Assisted Surgery Versus Conventional Fluoroscopic Technique"
- 2007: Dr. Mark Glazebrook (Halifax, NS) - "Outcome of Total Ankle Arthroplasty vs. Ankle Arthrodesis: A Prospective Multicentered Randomized Controlled Trial on Clinical and Radiographic Outcome"

## Special Awards

### 2007

**Alexandra Kirkley Young Investigator Award:** Dr. George Athwal (London, ON) - "Determination of Correct Radial Head Arthroplasty Length"

**Carroll A. Laurin Award:** Dr. Jeffrey Gollish (Toronto, ON) - "The Short and Long Term Effects of Perioperative Gabapentin on Rehabilitation and Pain Following Total Knee Arthroplasty: A Randomized, Double-Blind, Placebo-Controlled Trial"

**Robert B. Salter Award:** Dr. Michael Monument (Calgary, AB) - "The Role of the Mast Cell in the Creation of Post-Traumatic Contractures of the Rabbit Knee"

### 2006

**Alexandra Kirkley Young Investigator Award:** Dr. William Gage (Toronto, ON) - "Gait Symmetry and Knee Arthroplasty: Before and After Surgery, and Implications for Rehabilitation"

**Carroll A. Laurin Award:** Dr. Edward J. Harvey (Montreal, QC) - "Microtexturing of Allograft to Enhance Fracture Healing"

**Robert B. Salter Award:** Dr. Erin L. Boynton (Toronto, ON) - "Investigation of the Supraspinatus Muscle and Tendon Architecture in Normal and Full-Thickness Tendon Tears: A Cadaveric and Ultrasonographic Study"

### 2005

**Alexandra Kirkley Young Investigator Award:** Dr. Mohit Bhandari (Hamilton, ON) - "Fluid Irrigation Techniques in Patients with Open Fracture Wounds (F.L.O.W.)"

**Carroll A. Laurin Award:** Dr. John Antoniou (Montreal, QC) - "Serum Metal Ion Levels in Patients with Metal-on-Metal Hip Prostheses"

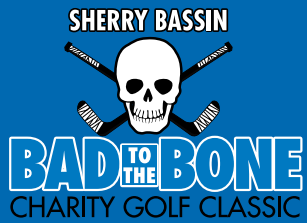

**Robert B. Salter Award:** Dr. Nadr Jomha (Edmonton, AB) - "Regeneration of Articular Cartilage"

Surgeons and community citizens from across the nation celebrated the gift of mobility by participating in the 2014 annual Sherry Bassin Bad to the Bone Charity Golf Classic in support of the Canadian Orthopaedic Foundation. It was a day filled with philanthropy, fun, food, and entertainment as players hit the links at the beautiful Wooden Sticks Golf Club in Uxbridge, Ontario.

The day was hosted by Sherry Bassin, an orthopaedic patient himself. Celebrated in the NHL, Bassin has led the Canadian World Junior Team to two gold medals, was the Assistant General Manager of the Quebec Nordiques (now the Colorado Avalanche), and served as a color commentator for CBC Sports in the late 1980's for their World Junior Championship coverage.

The event featured NHL guests and offered every participant an opportunity to golf with an NHL VIP guest. Proceeds from the event are invested into research funding and the Ortho Connect peer support program.

The Canadian Orthopaedic Foundation gratefully recognizes the following corporate partners and individuals for their generous support of the annual tournament:
